**Summary of Changes to POU 1995 – 2006**

June 2006 – Commissioner Boniface, during her testimony at the Inquiry, adopted two suggestions arising out of the OPP Part II Orientation to Incident Simulation: first, that the factors to be weighed in determining whether the POU will be deployed should be reduced to writing as OPP policy; second, that POU Commanders and ERT members, in addition to the training currently undertaken, should specifically be instructed on the special considerations and unique responses involving an Aboriginal blockade, occupation or land dispute. The first is being worked on, and the second will be incorporated into training of POU Commanders and ERT members by the end of 2006.
